Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A: Corresponding to the embodiment disclosed in Figure 3a

Species B: Corresponding to the embodiment disclosed in Figure 3b

Species C: Corresponding to the embodiment disclosed in Figure 3c

Species D: Corresponding to the embodiment disclosed in Figure 4a

Species E: Corresponding to the embodiment disclosed in Figure 4b

Species F: Corresponding to the embodiment disclosed in Figure 4c

Species G: Corresponding to the embodiment disclosed in Figure 5

Species H: Corresponding to the embodiment disclosed in Figure 6a

Species I: Corresponding to the embodiment disclosed in Figure 6b

Species J: Corresponding to the embodiment disclosed in Figure 6c

Species K: Corresponding to the embodiment disclosed in Figure 7a

Species L: Corresponding to the embodiment disclosed in Figure 7b

Species M: Corresponding to the embodiment disclosed in Figure 9

Species N: Corresponding to the embodiment disclosed in Figure 10a

Species O: Corresponding to the embodiment disclosed in Figure 10b

Species P: Corresponding to the embodiment disclosed in Figure 10c

Species Q: Corresponding to the embodiment disclosed in Figure 12

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: None of the claims is generic to all embodiments.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The species each recite mutually exclusive subject matter that are not related in such a way that one search could determine patentability. Additionally the subject matter in question would require separate classification searches in US class/subclass combinations.
3. Due to the complexity of this election of species requirement no telephone call was made to the applicant's council.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
